PERU POLICE DEPARTMENT

VOLUNTARY WITNESS STATEMENT

Case # 16-3941

This is an event that took place on March 27th of 2016. Otherwise (Easter Sunday) In the Evening, around 5 or 6:00 pm, Kevin Kramer brought Madeline Kramer (my daughter) to my house. He was returning her from court ordered visitation. This visitation, she stayed with him at his parents house, overnight. from (SATURDAY around 3pm to SUNDAY at 5:00 pm.) When she came back, Madeline was saying, and doing sexually (advanced for her age (3)) things.

- 1) She said "How's my cock?" when playing with a toy doctor set + placing the thermometer in my mouth.
- 2) She was ~~using~~ using these toy objects and continually making herself gag.
- 3) She was rubbing on her genitals, trying to force her fingers in her vaginal hole from outside her pants.
- 4) She said "Daddy do that" when I asked why she was touching her genitals. She has stated daddy touch my crotch + underwear with his fingers. This is a frequent occurrence, which have been documented. She is potty trained. I believe she knows the difference between bathroom based touching from touching somewhere else. (Inappropriately.) I've tried finding a child counselor, but there are none who take kids younger than 5yr. ^{In this area} around here. Madeline is 3yr. old. I've tried calling DC about similar instances where these types of things have happened + occurring predominantly from being w/ the father. I've tried calling VB to get her in counseling + left messages, even tried calling Pten VB to get I never get a reply or help. My insurance doesn't cover Chicago area child psychologist.

I have read the above statement consisting of _____ pages and attest that it is a true and accurate account of the events which took place on or about _____. It was given to me voluntarily, without any fear of threat of promise of reward.

Also Please don't call DCS, Lisa Travier told me when we talked on the phone she believes some abuse may be occurring but like me, ~~there's nothing~~ ^{she can do} since there is not strong enough evidence. DCS has never looked at my document + video evidence. 08/2007
